Sana Hospital

Bad Wildbad

The private station of the new Sana hospital building is characterized by its comfortably insulated and stress-free hotel atmosphere. The premier rooms are attractive for private patients who can enjoy hotel comfort in a warm atmosphere. Intelligent details and comfort elements are seamlessly integrated into the interior design. Alder surfaces and soft white nuances, together with the hygiene tested carpet, create a space for a high-stay experience, where patients experience a feeling of well-being. Anthracite in the bathroom reference the slate-clad bathrooms of upscale hotels. The high-quality materials complement the timeless elegance of the design.

Address: König-Karl-Straße 5, 75323 Bad Wildbad, Germany. **Client:** Sana Kliniken AG. **Completion:** 2009. **Gross floor area:** 8,700 m². **Main materials:** carpets, layered alder wood, glazed stone ware floortile. **Type:** general hospital. **Building:** new construction. **Operator:** private.
